In the article titled "Miniaturized Printed Inverted-F Antenna for Internet of Things: A Design on PCB with a Meandering Line and Shorting Strip" [1], there were errors in Figures 3, 4, and 6. In Figure 3, the "$W$" and "$L_2$" were missing, in Figure 4, the "$I$" was missing, and in Figure 6, the numbers −30, −25, −20, −15, and −10 were mistakenly written as −35. These errors occurred during the production process. The correct figures are as follows.

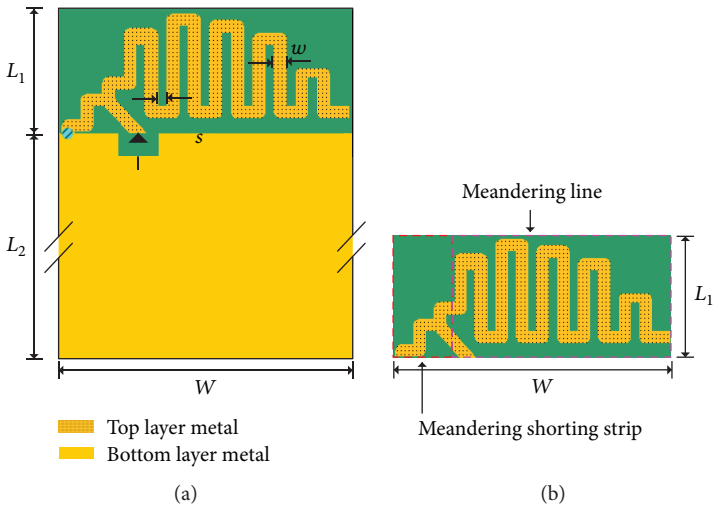

Figure 3: (a) Proposed antenna. (b) Antenna with meandering line and meandering shorting strip.

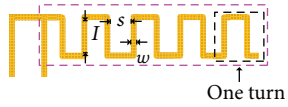

Figure 4: Meandering line used in PIFA.

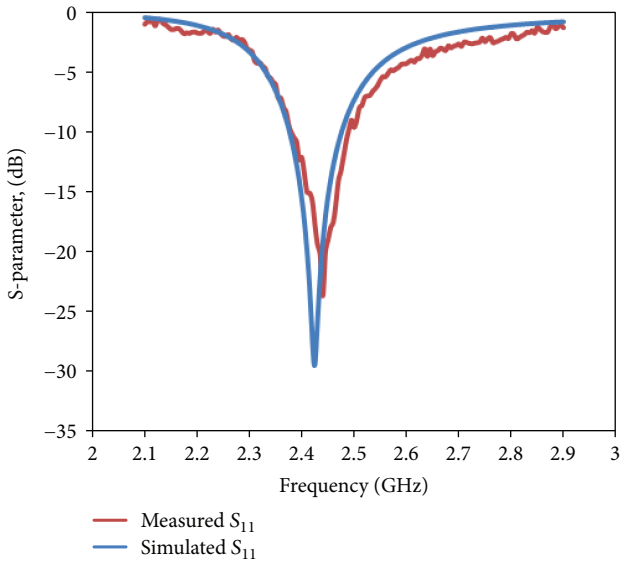

Figure 6: Simulated and measured $S$-parameter, $S_{11}$.
